

THE SOCIETY FOR THE HEALTH OF WOMEN AND  
CHILDREN OF VICTORIA  
AND  
THE TWEDDLE HOSPITAL FOR BABIES AND SCHOOL  
OF MOTHERCRAFT.  
INCORPORATING THE TRUBY KING LEAGUE OF VICTORIA.

E I G H T E E N T H  
Annual Report  
————— 1937 - 1938

## *Aims and Objects.*

---

1. *To uphold the Sacredness of the Body and the Duty of Health*; to inculcate a lofty view of the responsibilities of maternity and the duty of every mother to fit herself for the perfect fulfilment of the natural calls of motherhood, both before and after child-birth, and especially to advocate and promote the Breast-feeding of infants.

2. *To acquire accurate information and knowledge on matters affecting the Health of Women and Children, and to disseminate such knowledge* through the agency of its members, nurses, and others, by means of the natural handing-on from one recipient or beneficiary to another, and the use of such agencies as periodical meetings at members' houses or elsewhere, demonstrations, lectures, correspondence, newspaper articles, pamphlets, books, etc.

3. *To train specially and to employ qualified Nurses, to be called Plunket Nurses, whose duty it will be to give sound, reliable instruction, advice, and assistance, gratis, to any member of the community desiring such services*, on matters affecting the health and well-being of women, especially during pregnancy and while nursing infants, and on matters affecting the health and well-being of their children; and also to endeavour to educate and help parents and others in a practical way in domestic hygiene in general—all these things being done *with a view to conserving the health and strength of the rising generation, and rendering both mother and offspring hardy, healthy, and resistive to disease.*

4. *To co-operate with any present or future organisations which are working for any of the foregoing or cognate objects.*

---

*N.B.—The Society was started as a League for mutual helpfulness and mutual education, with a full recognition of the fact that, so far as motherhood and babyhood were concerned, there was as much need for practical reform and "going to school" on the part of the cultured and well-to-do as there was on the part of the so-called "poor and ignorant."*

A Sunbath in the Hospital Garden:

THE SOCIETY FOR THE HEALTH OF WOMEN AND  
CHILDREN OF VICTORIA  
and  
The Tweddle Hospital for Babies and School of Mothercraft  
(Truby King System)  
Incorporating  
The Truby King League of Victoria

# **Eighteenth Annual Report**

1937-38.

---

TO THE MEMBERS:

Ladies and Gentlemen,

After another year of achievement we are pleased to present for your approval the following resume of our work and accounts covering the financial period which ended on the 30th June, 1938.

The Seventeenth Annual Meeting was held at the Hotel Windsor on the 2nd day of September, 1937, at 3 p.m. and was presided over by the Hon. J. Hume-Cook.

Among the speakers were Dr. Vera Scantlebury, Major-General W. A. Coxen and the Mayor of Footscray (Cr. Free).

The Report and Statements of Accounts were adopted and the retiring office-bearers re-elected.

The Hon. Treasurer, Mr. J. P. Knight, entertained those present with afternoon tea at the close of the meeting.

## **Obituary**

It is with profound regret that we have to record the death of Dr. Sir F. Truby King, the founder of the system practised at the Tweddle Hospital for Babies and all our Society's Centres.

## **Truby King League of Victoria**

During the past year negotiations have proceeded for an incorporation of this League with your Society and ultimately in February of this year the members of the former sanctioned

such incorporation and members of their Board of Control were duly elected to our Executive, and you are now asked to ratify this move. You will notice in the accounts that the Receipts and Expenditure of the League are included and cover a period of seven months from the 1st December, 1937.

We now employ two Sisters, one of whom is in charge of The Kelvin Hall Welfare Centre and the other visits Kilmore and Balwyn Welfare Centres and makes many private calls in the city and suburbs of Melbourne.

In order to finance the expenditure on this work we gratefully acknowledge the annual donation of £300 from Kari-tane Products Pty. Ltd. and the many contributions from supporters of the League, particularly the members of the Truby King League Section headed by Mesdames James Wilson and W. A. Leitch and Sister M. V. Primrose.

#### **Endowment Fund**

During the year a Trust Deed was executed whereby The Union Trustee Co. of Australia Ltd., Messrs. J. Hume-Cook and A. S. H. Gifford are appointed trustees to manage this fund. With a credit balance of £1474 in hand, an income of £125 p.a. from securities which will ultimately be handed over to them, these trustees have the nucleus of a fund the income from which it is hoped will eventually make the Society self-supporting. We appeal through these pages to all our supporters for help in augmenting this fund by making provision in their wills to bequeath amounts, be they large or small, in favour of this Society.

#### **Propaganda**

Demonstrations and advice were given by the Hospital Sisters and Senior Students at the Royal Show, at the Society's own stand. Addresses have been given by Matron at the Girls' Methodist Guild, East Caulfield, and mothers addressed at West Footscray Methodist Hall, and numerous advice and instruction to mothers and fathers at "Tweddle" Hospital.

Plunket Sisters have judged at Baby Shows, and Sister Innocent (Sister Tutor) addressed the mothers at Newport Health Centre.

An interesting letter was received from Dr. Francisco Laport, Rio de Janeiro, Brazil, inquiring about the work of the Society. Copies of Annual Reports, a revised copy of "Feeding and Care" (Sir Truby King) and leaflets were forwarded.

Matron Graham was invited by the President and members of the Swan Hill Infant Welfare Centre to speak at their Annual Meeting last September. The invitation was accepted, and a most interesting two days was spent in visiting the Swan Hill Centre and Sub-centres and meeting the members of the committee who generously entertained Matron at a Bridge Party specially given in her honour.

### **Hospital Training**

Eighteen (18) trained nurses have completed a Course of Infant Welfare training. These trainees all passed the hospital examinations and gained the Society's certificate for infant welfare. The following are the names of the students:—

Hilda M. McKellar, Constance K. Walker, Gladys M. Cowley, Gwendoline E. Bartholomew, Elvina E. Cooper, Millacent V. O'Brien, Ida Robson, Marion A. Pumphrey, Blanche Mitchell, Emily E. Pumphrey, Nora Coppinger, Theresa Brock, Anne Platt, Mary M. Montgomery, Blodwen M. Jones, Joyce P. Howard, Eunice Schrader, Zoe W. Evans.

(Blanche Mitchell, a New Zealand trainee, completed a two months Refresher Course to sit for the Nurses Board Examination in Victoria.)

Sister J. E. Shrimpton completed 2½ months of a four months course, but was obliged to relinquish the course owing to ill-health.

Seventeen (17) Plunket Nurses presented themselves for the Nurses Board Examinations. They were all successful in gaining the Nurses Board Certificate.

### **Primrose Nurses**

The following are the names of those who completed a 12 months course of training and gained their Primrose Baby Nurse certificate:—

Margaret Spencer-Gardner, Joyce O. Catling, Mary F. Ely, Margaret A. Connellan, Charlotte A. Roulston, Gwen MacLeod Griffith, Marjorie M. Angas, Naida Chaffey, Dorothy W. Roche.

### **Homecraft Hostel Students**

The Homecraft Hostel curriculum includes a series of mothercraft lectures and demonstrations. These were given by Sister Innocent (Sister Tutor of "Tweddle" Hospital) and

Sister Rees of the Truby King League at the Hostel and "Tweddle" Hospital. Sixty-two students were examined and 57 gained the certificate for mothercraft.

"Tweddle" Hospital lectures and demonstrations for the year were as follows:—

Doctors' lectures	60
Doctors' Clinics (Centres)	9
Doctors' Clinics (Women's Hospital)	18
Matron's Lectures and Clinics	120
Practical Demonstrations by Sisters to Students	80
Practical Demonstrations given by Students	120
Test Examinations for Students (written)	44

The Nurses Board State Examination in Infant Welfare was held at "Tweddle" Hospital in March, 1938.

Three Students taking a Course in Dietetics from the following hospitals—Prince Alfred (2 students), Royal Melbourne (1 student)—completed three weeks of Infant Welfare tuition at "Tweddle."

#### Visitors

Miss Winifred Paynter (Lecturer, Oxford University).  
 Dr. V. Scantlebury (Director of Infant Welfare) and  
 Miss Dora Martin, Chile.  
 Mrs. Newland-Fletcher, Chelsea, England.  
 Miss McGillivray (Matron, Tasmania Training School).  
 Miss M. G. Hitchman, New Zealand.  
 Mrs. Harris, New Zealand.  
 Mrs. Gibblin, Tasmania.  
 Mrs. Felix Myer and visitors from New Zealand.  
 Miss C. Shoobridge (Secretary of the Tasmanian Training School).

Victorian visitors call daily to see over the hospital.

The following histories will illustrate the type of work carried out at "Tweddle" Hospital:—

Premature twins (girl and boy) admitted to the Hospital on 21/4/'38. Born on 20/4/'38 at 6½ months. Birth weights: Girl 2 lb., boy 3 lb. Transferred from a private hospital a distance of 130 miles.

Little girl lived 24 hours; extreme prematurity and frequent attacks of cyanosis.

History of Little Boy, admitted 21/4/'38.—Very frail premature, cyanosis marked and frequent attacks. Placed in a centrally heated room in specially prepared cot, lined with brown paper, and flannel headpiece. Usual premature treatment carried out regarding hot-water bags. Doctor frequently in attendance, and a trained Sister day and night. Carbogen (warmed) given almost continuously for first few days. Cardiazol, 1 minim in 2 minims of water, also Coramine,  $\frac{1}{2}$  cc., when necessary, also brandy, 2-3 minims in water.

Diet.—First Day—10 to 15 minims of boiled water and brandy given by pipette at two-hourly intervals.

Second Day.—1 $\frac{1}{2}$  ozs. of breast milk from a foster mother per pipette for day.

Third Day.—2 $\frac{1}{2}$  ozs. of breast milk from a foster mother from small bottle.

Fourth Day.—3 $\frac{1}{2}$  ozs. of breast milk from a foster mother from small bottle.

Fifth Day.—Condition not improving; feeding per gavage substituted. This method of feeding was continued until the nineteenth day, when baby's condition had so improved that 12 ozs. of breast milk was sucked from the bottle for the day.

Twentieth Day.—Baby's mother was admitted to hospital and regular manual expression carried out daily, also breast massage and stimulation. From this date feeding was three-hourly (eight feeds in 24 hours) from the bottle with expressed breast milk, in steadily increasing amounts. At the age of seven weeks baby was taking 17 $\frac{1}{2}$  ozs., with seven feeds in 24 hours and one night feed discontinued, and a week later was off the second night feed, and now taking eagerly 18 ozs. in six feedings.

At the age of 10 weeks baby was naturally fed by his mother.

General Treatment.—Owing to baby's frailty, and uncertain respiratory condition, complete oiling in the usual manner for a premature baby was impossible. Sectional oiling was carried out, with a minimum amount of handling and exposure. At four weeks of age daily oiling was successfully carried out. respiratory condition normal, and the use of carbogen dis-

continued for some days prior to daily oiling. At eight weeks of age baby was bathed in a normal manner. Stools were always normal; no necessity at any time for rectal massage or stimulation. Abdominal distention and vomiting unknown. Sun-bathing was a frequent feature of treatment for several weeks and Minadex Minims, three given in each feeding. Later Kariol was substituted with a small amount of complementary feeding of H.M.1. H.M.3 was then given as a complementary.

JAMES DOWLING WILSON.

This baby, weighing 3 lb. at date of birth, showed the following weekly gains in weight from the fourth to the tenth week respectively:—

Fourth week . . . . .	12½ ozs.
Fifth week . . . . .	9 "
Sixth week . . . . .	11 "
Seventh week . . . . .	11½ "
Eighth week . . . . .	10 "
Ninth week . . . . .	4 "
Tenth week . . . . .	5 "

Mother and baby were discharged from hospital on 10/7/38 under the care of a Primrose Nurse. On 28th July the following report was received from nurse:—"I am sure you will be interested to know that James is now on four-hourly feedings (has been for a week). You would notice a great difference in him; he is much bigger, and the subject of much admiration. He is now on orange juice, and also having bodily massage (massage as taught at 'Tweddle' Hospital for toning up of babies, or to maintain a good bodily tone). He now weighs 9 lb. 1 oz. and is 14 weeks of age."

As the above baby was ordered cardiazol and such good results were obtained, we found the following article of interest from the English "Nursing Mirror," and reported by Drs. Gwen K. Lee and Terrance Lee, in the British Medical Journal: The patient was a male child, 11 lb. in weight when born. During the puerperium, after an unsatisfactory attempt at breast feeding, the child was given a well-known brand of condensed milk. He suffered from intermittent diarrhœa and gradually lost weight. After three weeks the diarrhœa became so marked that the parents gave him 1½ grains of hydrarg. cum creta in divided doses. When first seen by one of us 24 hours later, he was obviously dehydrated, though at the time circulation and respiration were not seriously affected. Fortunately, he was not vomiting. Brandy and slightly sweetened water were ordered. Unfortunately the baby, refusing all fluids, rapidly became worse, and 12 hours later the eyes were sunken and glazed, with the eyelids half open, respiration shallow and gasping, the heart sounds feeble and rapid, and no pulse could be felt at the wrist. Weakness was so marked that the child could barely swallow; he seemed to have no desire for fluid, which had to be introduced by means of a pipette. He retained very little when given a rectal saline. The case looked hopeless.

Two drops of cardiazol were introduced into the first feed by pipette of weak condensed milk, and as this seemed to give the child some desire for further fluid it was repeated four-hourly. After the first dose of cardiazol four minims of pituitrin were injected hypodermically and repeated once six hours later. As a result of this treatment the circulation improved, but the most interesting feature was the increase in appetite after every dose of cardiazol. After 48 hours the baby seemed out of danger, so cardiazol was discontinued. The next day he was not so well; his circulation was sluggish and he was again apathetic to his feeds. The administration of cardiazol was resumed and he took his feeds more readily. His general condition also improved. After several days the cardiazol given was gradually reduced, and after a week the baby made an uneventful recovery. The condensed milk feeds were replaced by ostermilk (full-cream), which he took readily. He is now seven months old and weighs 22 lb.

Another type of baby frequently admitted to the Hospital is the nervous, vomiting, over-stimulated baby. A medical man aptly expresses the condition of these babies by saying: "Most infants have nervousness thrust upon them." Unfortunately it takes months to eradicate the results of only a few weeks bad training. The new training entails endless patience and perseverance. Such is the following case:—

Baby admitted to hospital 18th February, 1938. Birth date, 12th November, 1937. Birth weight, 8 lb. 8 ozs. Weight on admittance, 10 lb. 8 $\frac{3}{4}$  ozs. History of frequent vomiting, loss of weight, emaciation, in a highly nervous condition, with attacks of screaming, and restlessness.

Diet prior to admission:—Breast fed complemented with sweetened condensed milk for one month. Changed to cow's milk (skimmed) with equal parts of milk and water with a teaspoon of flour added. Barley water and milk given, with Ostelin, 1 minim, in each bottle. Lactone syrup was then tried, and baby was later admitted to hospital on a sweetened condensed milk mixture.

After so many changes of diet, every effort to obtain breast milk was made; breast milk and a bengerised mixture were then given. Nursing treatment consisted of every mothercraft detail that would aid in overcoming this baby's nervous condition, and almost continual vomiting. A mild sedative was given for several weeks before feeding; at other times, before

any necessary treatment, also a bismuth mixture. Baby was handled with extreme care by specially chosen nurses, and any handling reduced to a minimum by cot-sponging, and the usual routine of "holding out" for evacuation, or massage of any kind was strictly forbidden. He was fed in a quiet spot, and away from the other babies. Owing to continuous sucking of both fists, and thus accentuating vomiting, specially prepared soft but firm splints were applied during the daytime.

After three weeks, improvement commenced—less restless, sleeping for long periods naturally, vomiting definitely improved, colour and muscular tone also. Weight gains, which had previously been spasmodic, became consistent.

Graduated sun-baths were commenced, and finally given twice daily (weather permitting) with the whole body exposed. Vitamines in the form of Kariol Emulsion, additional orange juice, and later marmite were gradually introduced and tolerated. Sedative mixture and splints were discontinued, and a dawning interest shown by baby in his hands was encouraged. He was placed under a tree and evinced great interest in the movement of the leaves, thus transferring his interest from the habit of fist-sucking and tongue movements.

After 11 weeks in hospital, baby was discharged weighing 14 lb.; a healthy, happy, sun-tanned baby, and a contrast from the nervous, screaming, and vomiting baby admitted. His last weight, received on 2nd August from the Health Centre Sister, was 17 lb. 5½ ozs.

#### Infant Welfare Centres

The Plunket Sisters give excellent service to the community by their help and advice to mothers, and their supervision and weighing of the babies, also by home visiting.

The following Centres are presided over by:—

Sister L. Hancock . . . . .	Braybrook
Sisters L. Duff and K. Hughes . . . . .	Coburg
Sisters B. Bird and K. Devine . . . . .	Footscray
(Sister Bird at present in England; Reliever: Sister Doig)	
Sister A. Forbes . . . . .	Kyneton
Sister Rawolle . . . . .	Newport
Sister A. Pye . . . . .	Swan Hill
Sister I. Macpherson . . . . .	Yarraville
Sister G. Leaney . . . . .	Williamstown
Sister Williams . . . . .	Dandenong

Sister Holland . . . . . Preston  
 Sisters Johnson and Rees . . . . Kelvin Hall (City)  
 Sister Rees . . . . . Kilmore and North Balwyn

Plunket Sisters who are in charge of other Centres are:—

Sister Stewart: Merbein and Redcliffs.

Sister Milne: Mildura.

Sister O'Malley: Yarram.

Sister M. Whelan opened a Centre for the British Phosphate Commission at Ocean Island.

Sister Rendell, Matron of Casterton District Hospital, with Sister M. Pumphrey assisting in Infant Welfare.

Sister Wescombe in charge of the Truby King Centre, South Australia.

#### "Tweddle" Hospital for Babies.

From the 1st July, 1937, to 30th June, 1938, 98 babies and 56 mothers were admitted, making a total of 154. These with the addition of 10 babies and 4 mothers carried over from the previous year make a total of 108 babies and 60 mothers (total 168) resident in hospital, and under treatment for varying periods.

The average length of stay has been 28.8 days for babies and 14.8 for mothers. Of these 98 babies under treatment, 1 died, the infant mortality rate being 1:2.

Cases were admitted to hospital from the following suburbs of Melbourne and country districts:—

Albert Park	Gippsland	Seddon
Brighton	(and South)	Sunshine
(and Middle)	Gardenvale	St. Kilda
Brunswick	Hartwell	Springvale
Brunswick	Hawthorn	South Yarra
(East and West)	Heidelberg	Toorak
Carnegie	Kew (and East)	Werribee
Caulfield	Lilydale	Williamstown
(and North)	Mont Albert	(and North)
Chelsea	Malvern (and East)	Yarraville
Coburg	Moonee Ponds	
Dandenong	Mordialloc	Camperdown
Diamond Creek	Maribyrnong	Drysdale
Elwood	Mitcham	Geelong
Essendon	Newport	Horsham

Elsternwick  
Footscray  
(and West)  
Flemington

Ormond  
Preston  
Ringwood  
Spotswood

Longwarry

### Acknowledgments

Throughout the year the three Auxiliaries (The Central Auxiliary, The Footscray Auxiliary and The Primrose Nurses' Auxiliary) have contributed in many and various ways in their usual generous manner towards the support of the Hospital. The Hospital authorities are sincerely grateful to these Auxiliaries, and offer their thanks and appreciation to all members for their interest and support.

To the members of the Footscray Auxiliary for the following:—Laundry alterations, and the erection of a drying room in the laundry. This generous donation from the Auxiliary is now supplying a need which has been felt necessary for many past years.

The official opening was held at "Tweddle" Hospital on Thursday, 28th April. Members of all the Auxiliaries were invited, and were entertained at afternoon tea by Matron Graham and the Hospital Sisters. Guests were shown over the Hospital. Members again displayed their noted generosity by bringing gifts of tinned fruit or household linen. Other gifts were goods to the value of £ 10 at Christmas time; 2 dozen aertex; 31 yards of British crepe; 24 yards of calico; 64½ yards of towelling; 18 yards of clydella; 4 dozen tape; 1 dozen sewing cotton; 2 boxes of brilliant thread.

Gifts, replacements and renovations have been the work of the Central Auxiliary during the year. For entertainments, etc., see Auxiliary's special report. Five rooms, one passage and bathroom were kalsomined; nurses' dining room re-papered; curtain material; boiler for kitchen; four new mattresses and covers (extra); 14 old mattresses re-made.

Primrose Nurses' Auxiliary have worked in an energetic and interesting way for their Training School and its improvement in general. The Executive and Matron wish to thank this Auxiliary for their splendid help, and particularly to Sister Anderson (President) for her unfailing support. For special work and efforts, carried out, see Auxiliary Report.

Apart from the donations of the Auxiliaries the following gifts have been received:—

Miss Eunice Angliss: An electric washing machine and wringer.

Mrs. Farren-Webb: Gas copper and fittings.

Mrs. W. G. Eggington: Scales (baby).

Mr. Gardner (Metters K.F.B.): Enamel bath.  
 Sanitarium Health Food Co., Victoria: Case of san bran,  
 11 dozen jars of marmite.  
 Sister Pye (Swan Hill): Case of oranges.  
 Mr. Roulston: Case of plums.  
 Collins Bros. Pty. Ltd., Geelong: Samples of flannel.  
 Mrs. and Miss Coxen, Mrs. J. Molloy: Woollen garments  
 (hand knitted).

Christmas Gifts:—

Mr. Twedde: Cheque.  
 Dr. McCarthy: Turkey.  
 Mr. and Mrs. Knight: Cooked ham.  
 Mrs. J. Wilson: Cake.  
 Footscray Auxiliary: Goods to the value of £ 10, including  
 fruit and vegetables for Christmas and fruit for jam.  
 Our thanks are due to the following: —

Dr. K. McCarthy for medical attention and advice for  
 the babies and nursing staff.

To the Hon. Medical Staff our thanks and appreciation  
 are due for their services as examiners, lecturers, and for clinics  
 given.

Mr. Mathews (Curator, Footscray City Council) for continued  
 supervision of the hospital lawns and gardens.

Mr. Page and Mr. Greenwood for transport of equipment.  
 "Mail" Office, Footscray, for weekly paper.

To all those members of the Society and the several Auxiliaries  
 and their friends who have so kindly and earnestly helped us  
 during the past year we extend our sincerest thanks and appreciation.

J. HUME-COOK, President.

STUART A. DAVIS, Hon. Secretary.

20th August, 1938.

LIST OF RECEIPTS FOR YEAR ENDED 30th JUNE, 1938

## TO OUR MEMBERS:

Ladies and Gentlemen,

The Committee of the Truby King League of Victoria Section of this Society has much pleasure in presenting its Statement of Receipts and Expenditure covering the period from 1st December, 1937, to 30th June, 1938. In doing so, the Committee views with gratification the merging of the two committees into one—that of the Society for the Health of Women and Children of Victoria and the Truby King League of Victoria.

This amalgamation was entered into with a feeling of good-will and the hope that an understanding of each section of the varied activities connected with the extension of Truby King's methods would bring about the "mutual helpfulness and mutual education" for which both Societies were started, in accordance with the principles of the Parent Society in New Zealand and its founder the late Sir F. Truby King. We are satisfied that this aim is possible of achievement.

Originally, we started with quarters in Melbourne only, and from this Centre we radiated into several country places, and at the time of union we had representation in country districts and suburbs such as Dandenong, Balwyn, Ormond, Kilmore, Preston and Springvale. In addition to these, our influence has been extended into many other country districts where there are no nurses and no doctors.

This has been made possible through the courtesy of the 3XY Broadcasting Station, which has permitted Sister Primrose to talk to mothers every Tuesday morning, and to give her very useful and much needed advice. Another factor which has helped considerably is the monthly article she contributes to the magazine of the Housewives Association, Howey Court.

By these means very many mothers are brought into touch with Sir Truby King's teaching; with the result that we find that his simple one-way methods are attracting them, and leading them to solicit our help and advice, which is so much needed for the mother and for the baby in these remote parts. Where we have personal contact, we have proof of the benefits of the teaching from the records of the large numbers being brought in to the established Centres.

While the merging of the two bodies was in process of being settled, it was impossible to devote as much attention to the progressive work of our Section, so that there was a period of more or less inactivity. But now that matters in connection therewith have been completed, we are engaged once more in the steady prosecution of our former work, and progress is being made as satisfactorily as hitherto.

Attendances at the various Centres are not only well maintained, but are on the increase, and we are striving always, not only to improve our usefulness in this way, but we intend to still further expand by opening up fresh Centres.

We have been indebted very much to the generosity of many friends, and we wish particularly to mention £100 which was granted to us by the H. V. McKay Trust and left in our hands by the Amalgamated Committees for the extension of our work. Also £134/15/3 from the Karitane Products Society, New Zealand, for the same purpose, and £50 from the Marian and E. H. Flack Trust, for our poorer mothers.

Much of the success which has been achieved by us up to now is attributable almost entirely to the untiring and unselfish efforts of our Organising Secretary, Sister Primrose, and on the occasion of our First Report to the joint Annual Meeting we particularly wish to record our indebtedness to her. In the past Sister Primrose has rendered her services to the cause entirely gratuitously, but we feel, now, that it would not be right to allow her to make such a sacrifice any longer, and in future she will be a remunerated officer of our Section.

We take this opportunity, also, of congratulating her on the honour of receiving both the Jubilee and the Coronation medals.

We would put on record our deep sense of loss in the passing of our beloved chief, Sir F. Truby King, the founder of the movement which has been of such inestimable value to the mothers and babies of the world. And we feel that, although he has passed on, his great work "For God and His little ones" will live for ever.

On behalf of the Committee,

(Sgd.) AGNES S. IRVINE, President.

(Sgd.) P. WILSON, Deputy President.

(Sgd.) P. LEITCH, Senior Vice-President.

TO THE MEMBERS:

Ladies,

We have much pleasure in presenting the Ninth Annual Report and Statement of Receipts and Expenditure for the year ended 30th June, 1938.

Membership has been well maintained during the year and all meetings satisfactorily attended. Meetings have been held at Mrs. Wm. Angliss's and Mrs. J. W. Springthorpe's residences and on one occasion at the Hospital, and the mem-

bers are very grateful for the hospitality extended on these occasions. Functions arranged with the object of obtaining funds were a Dance at Tudor Court, Bridge Party at The Mutual Store, and a Picture Night at Menzies Hotel, the latter being given by Mrs. Talbot Sanderson.

Mrs. Wm. Angliss also made "Graystones," Bacchus Marsh, available for an afternoon tea party.

It will be noted from the accounts that the sum of £105 was received for the twelve months, out of which a cash donation of £50 was made to the Society. Repairs executed at and goods given to the Hospital amounted to £34.

In addition, a seamstress was paid for services rendered at the Hospital from time to time.

Members helped on Flower Day in selling buttons, and the Management of the Windsor Hotel are thanked for providing morning tea and lunch for the workers.

In conclusion, we wish to thank members and their friends who have so ably assisted during the year in the work of the Auxiliary.

D. E. SPRINGTHORPE, President.  
M. ANGLISS, Hon. Secretary.

## PRIMROSE NURSES' AUXILIARY

---

### SEVENTH ANNUAL REPORT, 1938.

---

#### TO THE MEMBERS:

We have pleasure in presenting the report of the work of the Primrose Nurses' Auxiliary during the past twelve months.

Monthly meetings have been held regularly. The attendance has not been large, but we realise the difficulties which are encountered when Nurses are on private cases.

The aim or object of our Auxiliary has been for past and present Students to meet together socially, discuss matters of mutual interest, and also make plans for the raising of funds to help the Hospital.

Miss Bonsey, of London, gave an interesting talk on "Cromwell House," the Mothercraft Training School, London. Miss Schmidt also spoke on her European trip at another meeting, and Miss J. Harper gave an interesting account of her trip to Japan and China.

Four of our members have married during the year and we wish them every happiness in their new life.

It was not thought advisable to hold the Garden Fete this year on account of the Infantile Paralysis Epidemic. However, Miss Jean Barrell donated a beautifully dressed doll, the disposal of which, together with donations in silver bags, and a donation of £5 from G. J. Coles Pty. Ltd., brought in £43/2/3 for our funds. The 3KZ Friendship Circle invited two of our members to a Christmas Party, where they were presented with a cheque for £8 to be used for the Hospital.

The A.M.P. Dramatic Society once more gave a play on our behalf, and the sum of £22/15/7 was added to our funds.

On 27th May a Jumble Sale was held in the Federal Hall by kind permission of Mr. Mitchell. We are most grateful to Mr. Mitchell for his invaluable assistance, also to Mr. Page

for conveying the goods to the hall. The proceeds amounted to £10. The Athenæum also allowed us to hold a Picture Night in their theatre which realised £7/10/-.

In addition to the Annual Gift to the Society of £30, for the maintenance of a cot, our chief expenses have been incurred by a new cupboard for the Dispensary, renovations to Matron's Cottage, a new radiator, and sundries for the Hospital.

We thank all the members and friends for their help and support, and especially those who have filled the office of Secretary and Treasurer so capably. To Matron Graham and Sister Innocent we would also express our thanks for their help on numerous occasions.

A. ANDERSON, President.

### REPORT FOR 1937-38

Monthly meetings have been held at the Hospital and after the formal business was disposed of, bridge parties were enjoyed by the members which yielded the sum of £ 25/17/9, together with the following contributions, namely:—Olympic Tyre Co. Ltd. (Cabaret Dance), £ 10; Theosophical Society, £ 7/10/-; Mr. Robert Lilley, £ 5; Mrs. Alan Munro, £ 5; and Mrs. E. Hanmer, £ 1/1/-; a total income of £ 49/19/3.

There has been paid to the Society £ 65 on account of the cost of the new Drying Room, also £ 10/1/2 was expended on Christmas cheer at the Hospital.

A donation was made to the Hospital of 80 yards of towel-ling, 36 yards of butter muslin, 18 yards of clydella and 3 dozen knots of tape at a cost of £ 9/4/4.

Efforts are being arranged for the coming year to obtain funds to pay the balance owing on the Drying Room, namely, £ 40.

Monthly meetings have been held at the homes of members and at the Footscray Town Hall.

M. L. GENT, President.

W. M. FORGE, Secretary.
